Dear Harbour User,

### **DRY DOCK – STORAGE AREA TOWHEADS 2019/2020**

The above area was recently surveyed in connection with Subsea 7 cargo operations due during the winter season. The towheads will be arriving by ship and barge which will be berthed on the North River Pier.

The survey indicated the area required for manoeuvring will **severely** restrict the amount of storage area available at the Dry Dock to the extent that only those vessels already there can remain over the winter period. To accommodate on quay small boat storage over the winter, a larger area on the mart jetty will be made available to harbour users. In addition, any boats who wish to remain on the marina, may do so at a reduced rate, which will be the same as the on quay storage rate.

Subject to crane availability from Hugh Simpson Contractors Ltd, lifting out operations are likely to take place **October 25th & 26th 2019** weather permitting. **Please contact the Harbour Office as soon as possible to advise whether you are staying in or seeking on quay storage so that space can be allocated** . This is to ensure we can maximise the space for all users.

Should you have any questions on this please do not hesitate to contact the Harbour Office. Thanking you for your continued co-operation.

Yours faithfully

*Malcolm Bremner*
