

NOTICE TO MARINERS

(No.01 of 2022)

DATE: 12/07/2022

WICK HARBOUR and APPROACHES

(CHART 1462 REFERS)

Latitude 58° 26' North Longitude 003° 04' West

DREDGING OPERATIONS WICK RIVER HARBOUR APPROACH CHANNEL & OUTER HARBOUR ENTRANCE

Mariners are advised that Dredging Operations are due to commence on
20th July 2022

This work is estimated to take up to 4 weeks (weather permitting)

For the River Harbour channel temporary mooring buoys may be deployed in positions north and south of the channel. The buoys will not restrict vessels using River Harbour.

During this time all Vessels navigating within Wick Bay, and using the River Harbour, Outer and Inner Harbour entrances must proceed with extreme caution at the slowest possible speed, consistent with safe navigation and obey all signals and instructions.

Wick Harbour Authority and the dredger Shearwater will communicate to vessels on VHF Channel 14. All vessels are requested to maintain a listening watch whilst transiting between the harbour and bay and follow any instructions given.
